

# Day planner

Enhancing user authentication and integrity with Two-Factor Authentication and Task Management

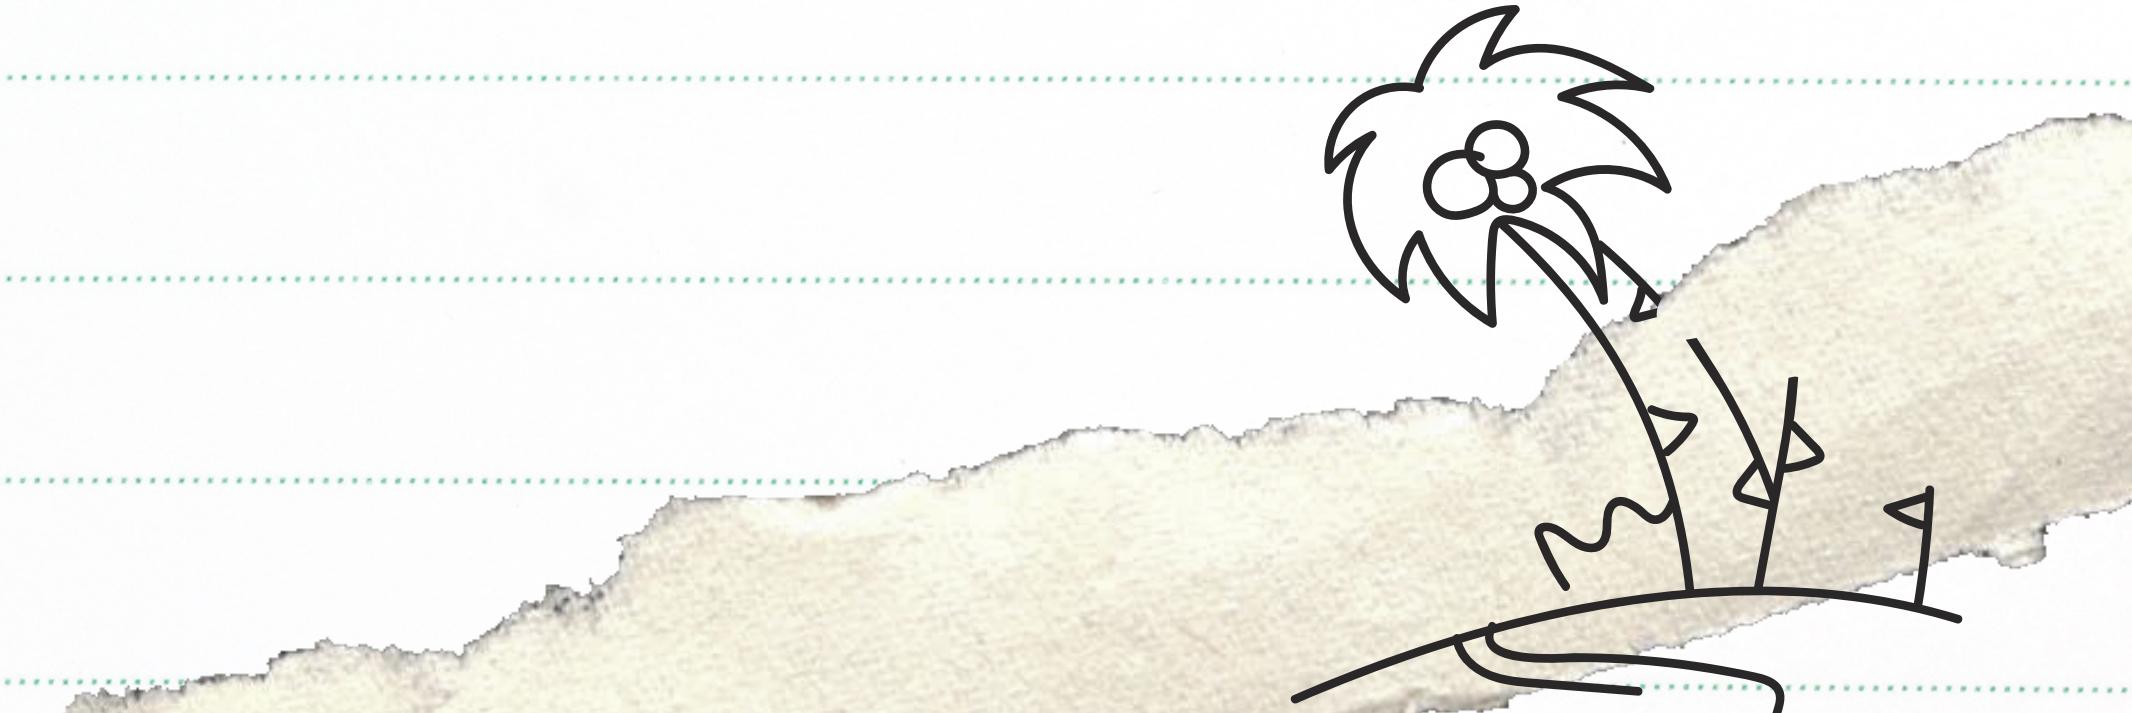

**Techtitans**

19 September 2023

# Today's Points

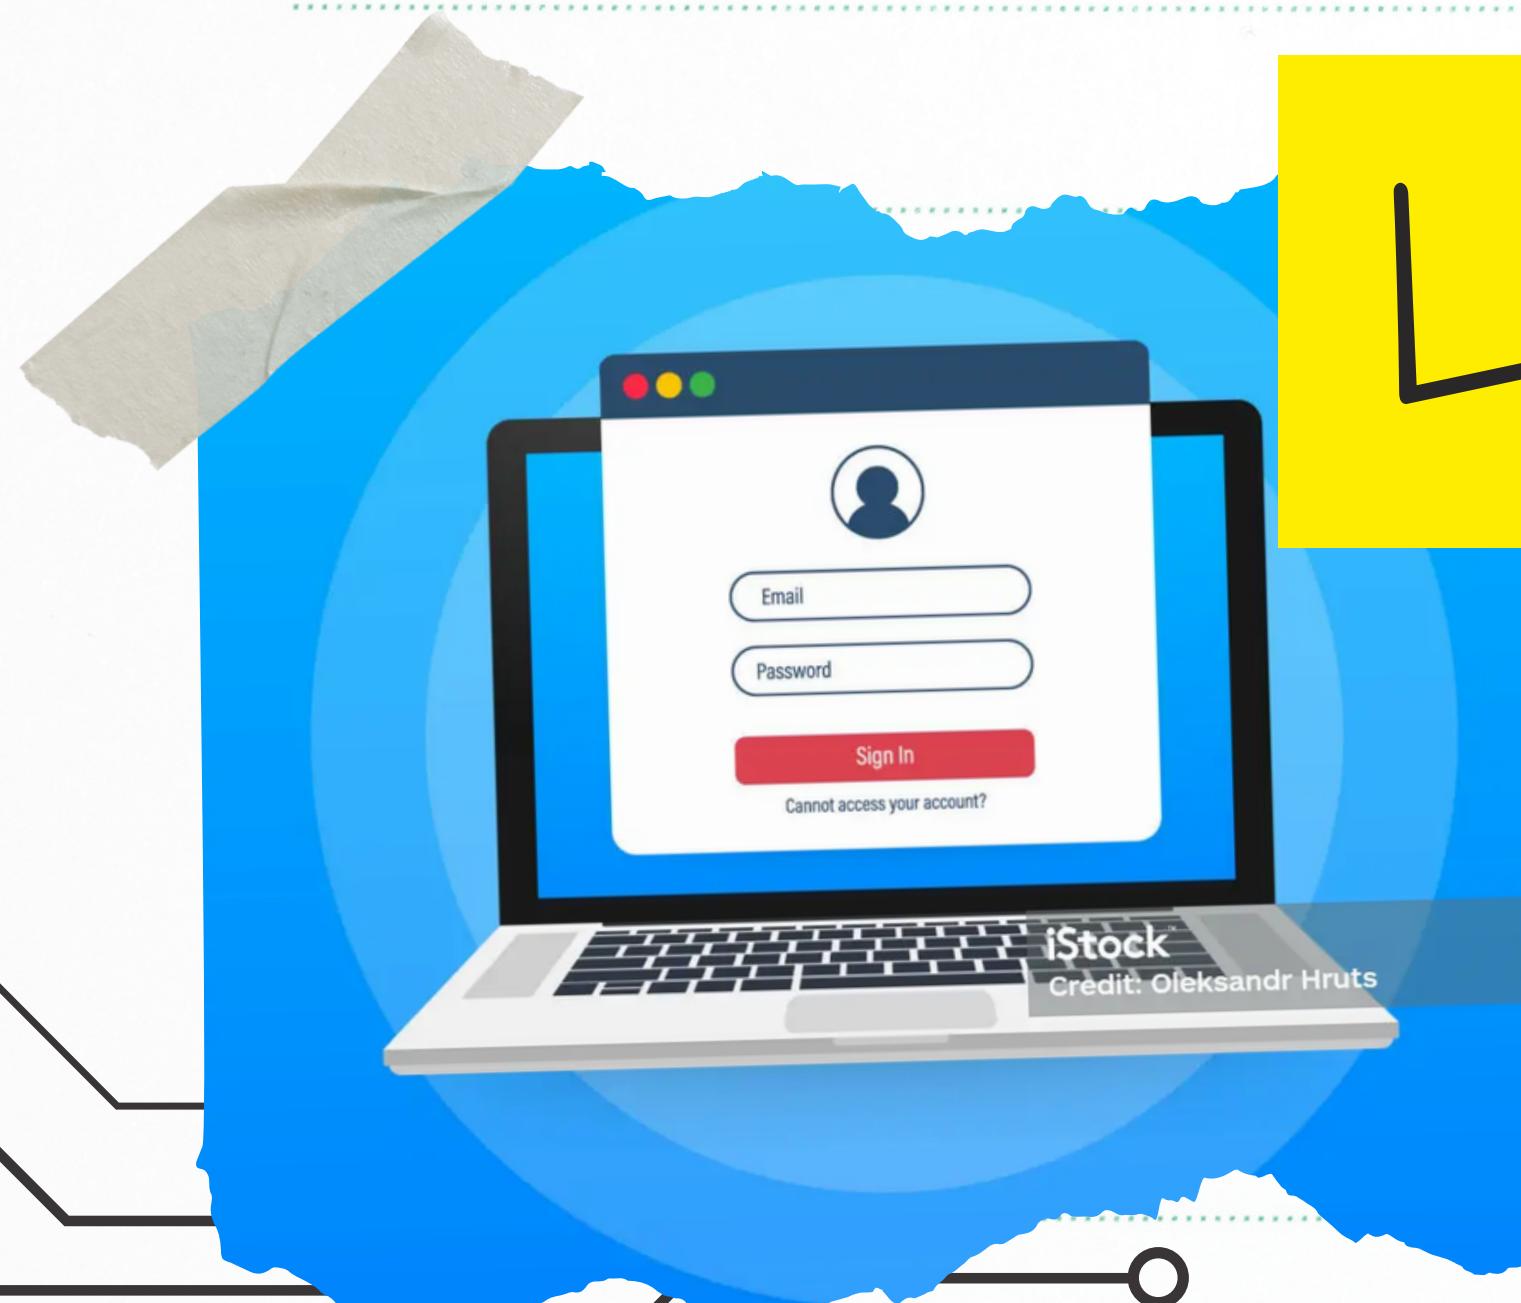

- What's our project
- Key Features

# Login Based

- Enhancing User Experience with Two-Factor Authentication and Task Management
- A Comprehensive Approach to Secure Login and Efficient Task Completion

- User Authentication using Password policies and Multi-Factor Authentication.
- Ensuring secure access to the app
- A vital security measure in today's digital landscape

## Access

- Enhancing User data confidentiality and data protection.
- Control accessibility based on task categories
- Intrusion Detection

## DATA

- Stealth Mode to hide user's sensitive data
- Enhanced security and data segregation
- Data backup and recovery

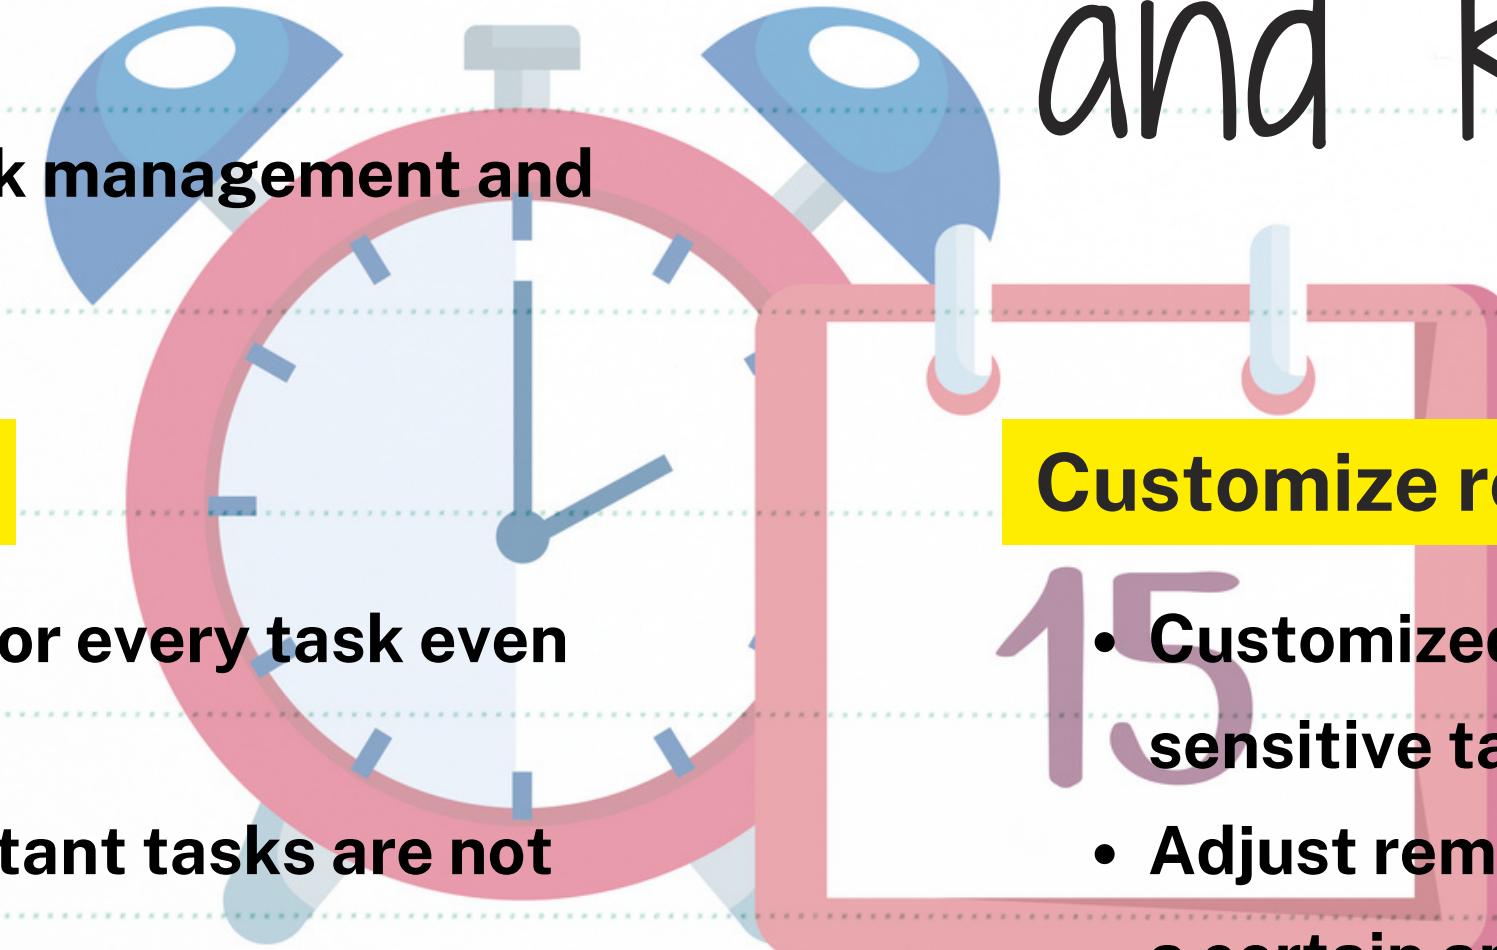

# Notifications and Reminders

## Categories

- set predefined categories for tasks
- Give access to users to add more categories
- Improved task management and efficiency

## Collaboration

- Notification for every task even on DND
- Ensure important tasks are not missed

## Customize reminder

15

- Customized reminders for time-sensitive tasks
- Adjust reminder to remind before a certain amount of time

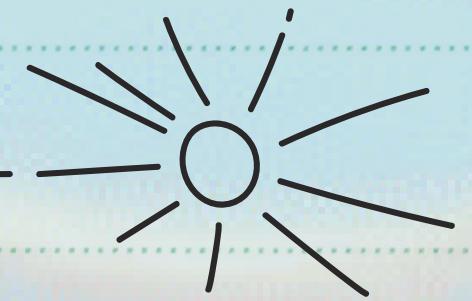

# Reward

- Reward system for timely task completion
- Encourages punctuality and productivity
- Incentivize users to meet deadlines
- Motivate users to maintain a time-oriented approach

# Recurrence and Realistic Simulations

- Recurring tasks for routine activities
- Streamline repetitive actions
- Engaging visualizations and interactive experiences
- Realistic simulation for morning walk

# Priority Deadline and Task Completion

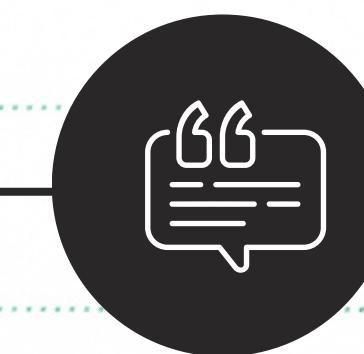

Set priorities according to task time

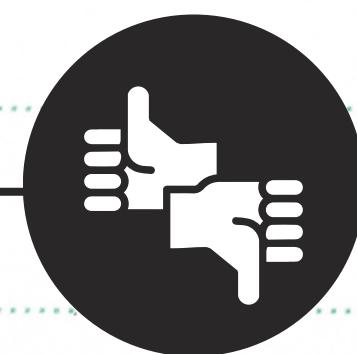

Ensure important tasks receive appropriate attention

Mark tasks as complete before time for bonus

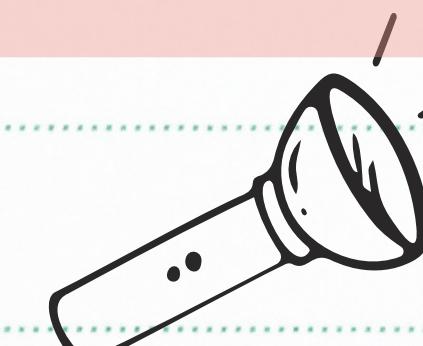

Motivate users to complete tasks ahead of schedule

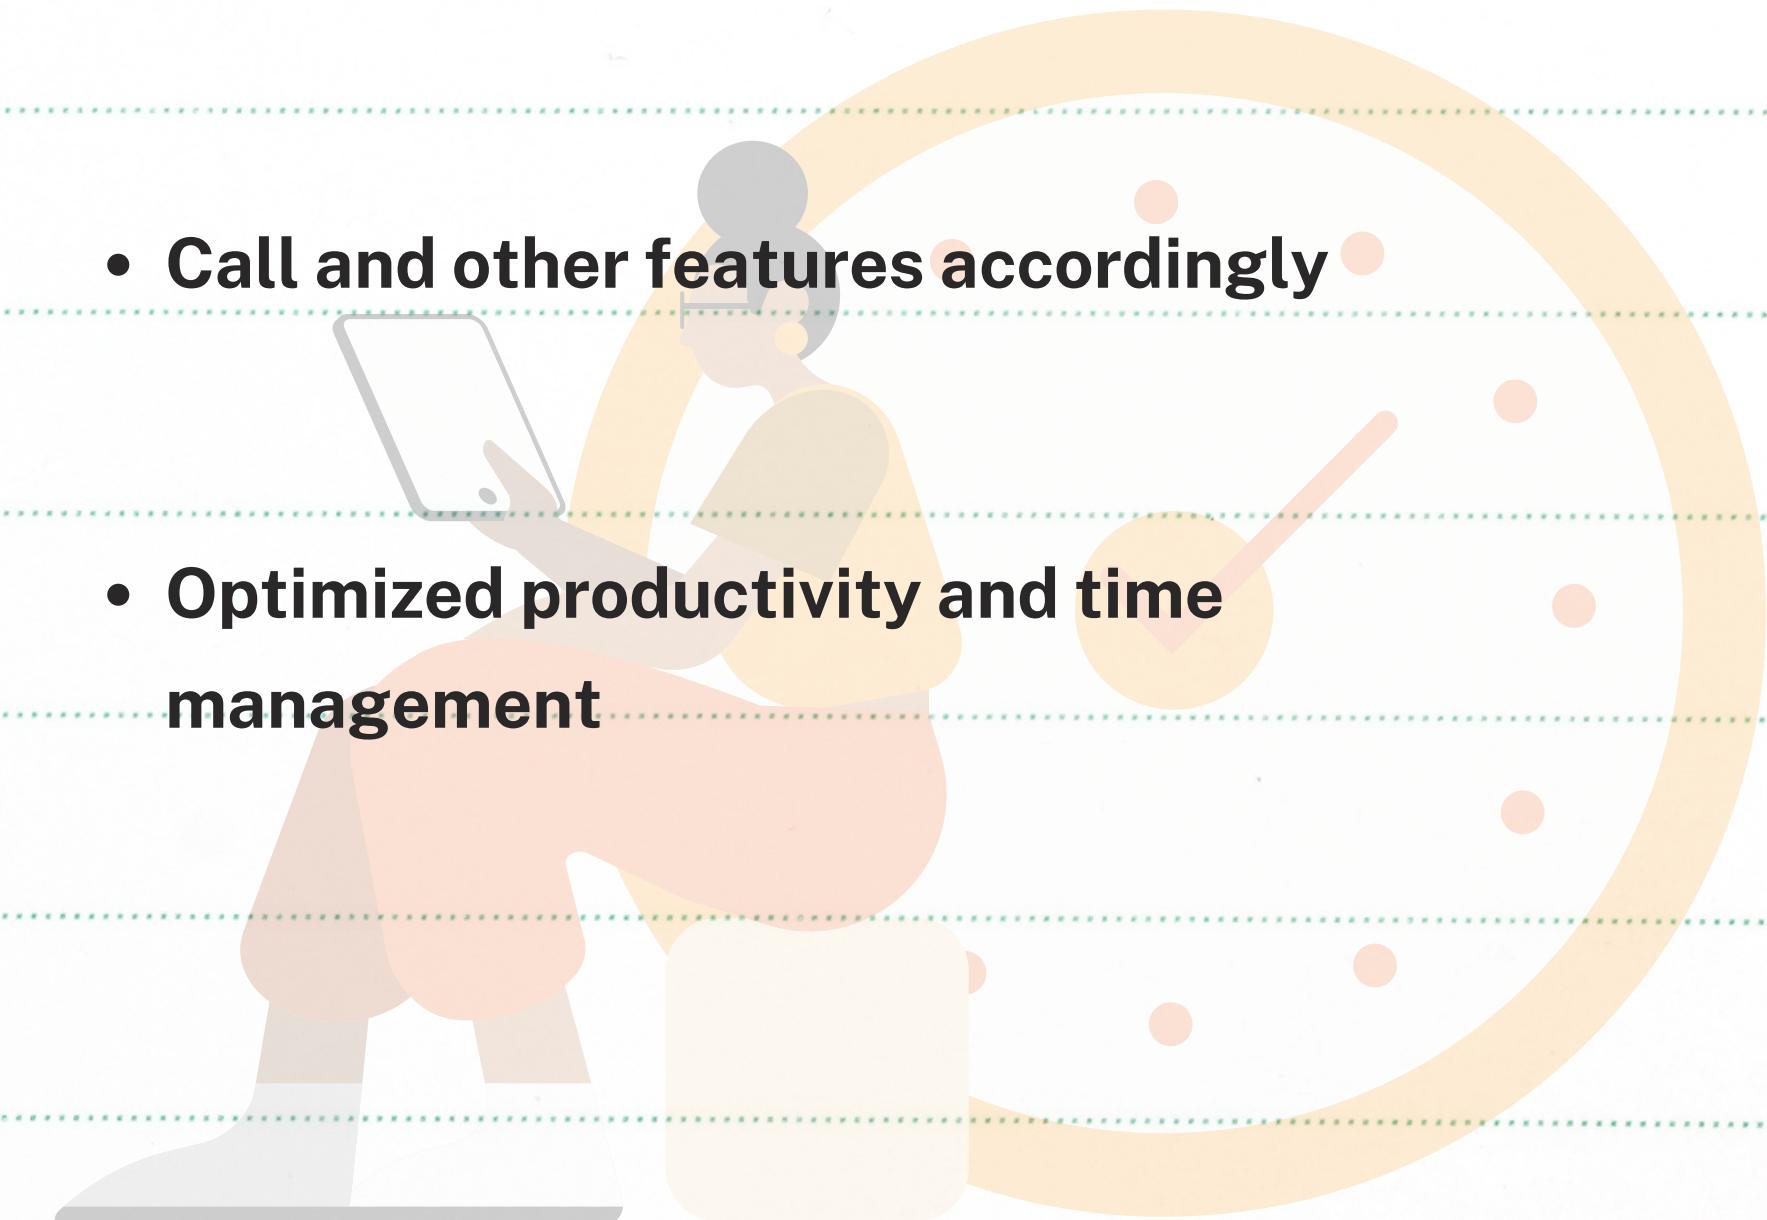

Ask for the feedback of the user after a certain duration of time

# Focus Mode and Office Hours

- Focus mode during office hours
- Minimize distractions and interruptions
- Call and other features accordingly
- Optimized productivity and time management

# Daily Routine Suggestions and Reminders

- Daily Routine Suggestions and Reminders

- Assist in establishing effective daily routines

- Medication reminders for improved health

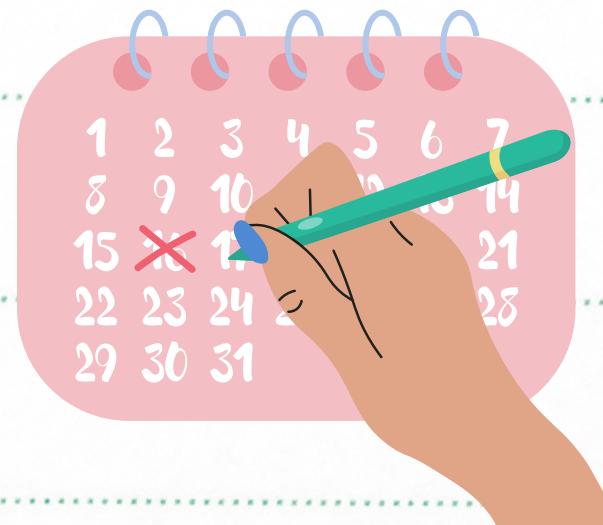

- Reminder for appointments with doctors

# Task Completion Status on Calendar

- Green block on the calendar for completed tasks
- Visual indication of task completion
- Red block for pending or incomplete tasks
- Intuitive and clear task progress visualization

# Some other features

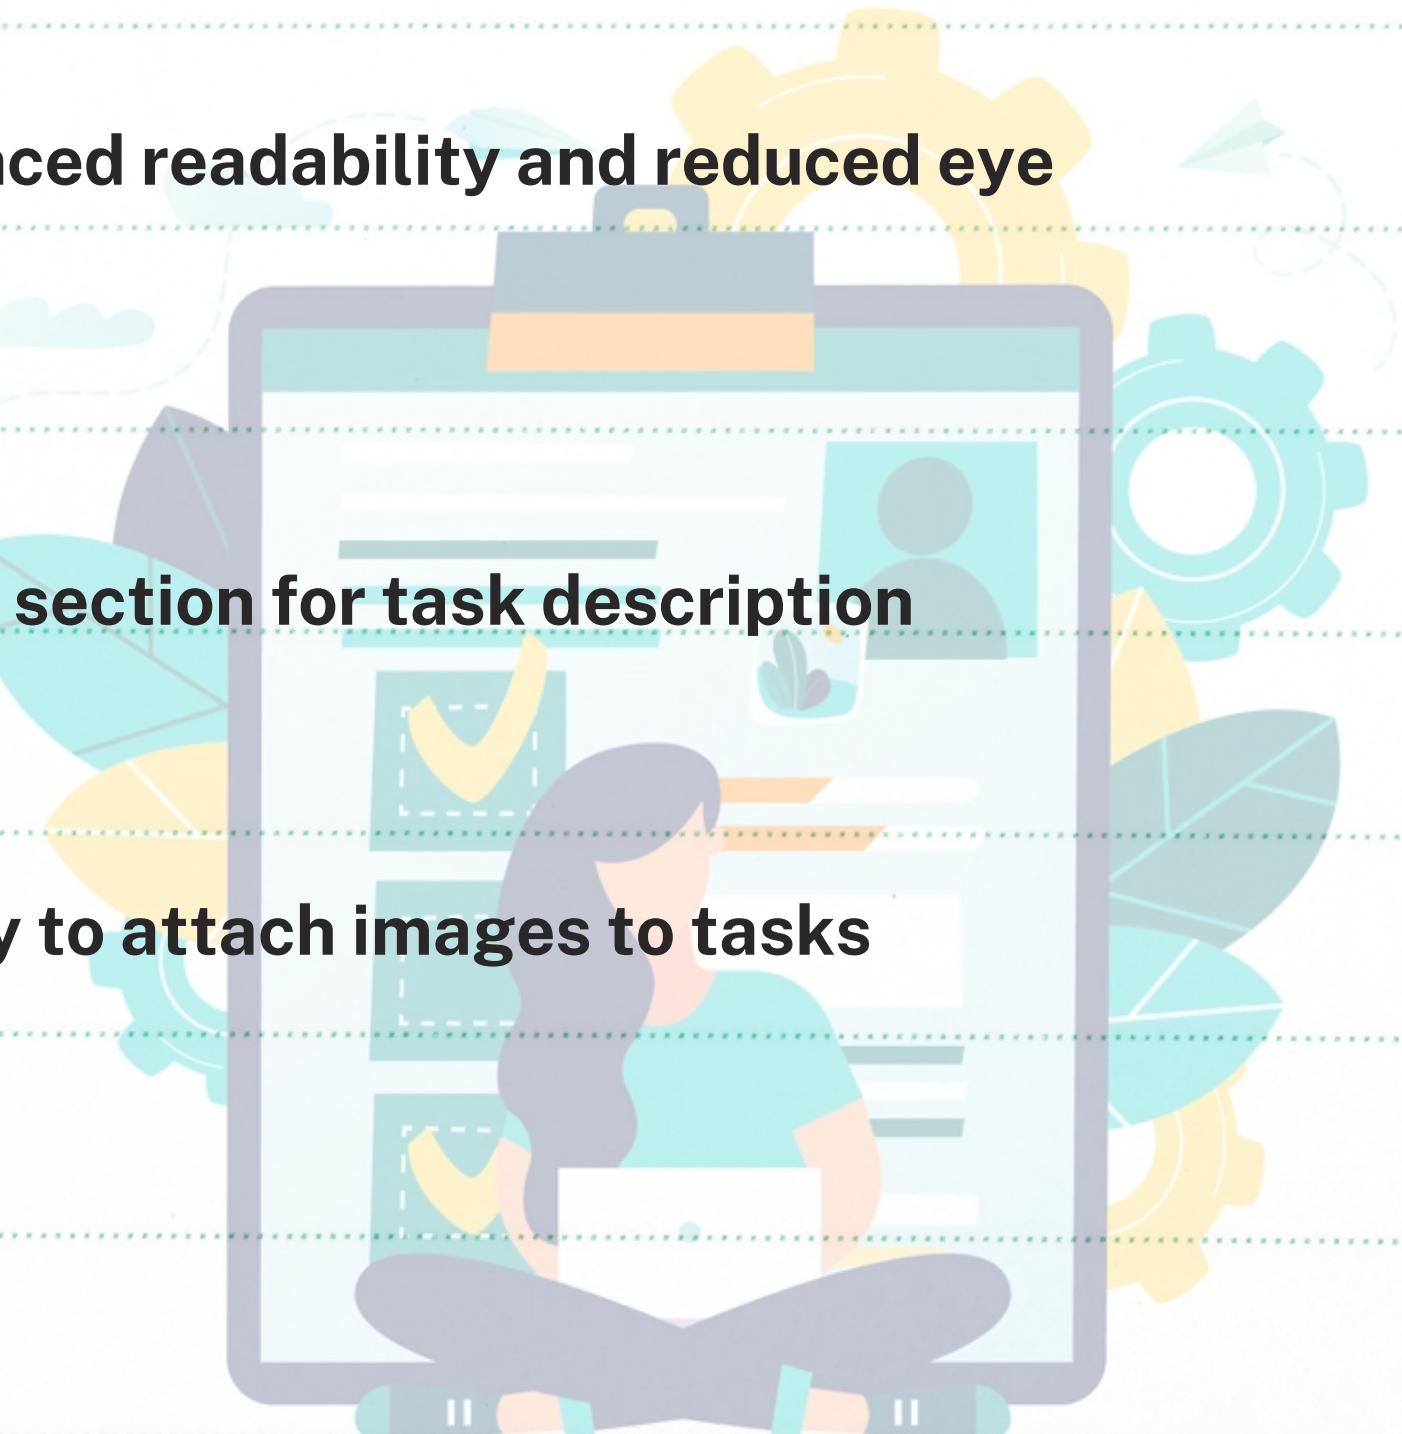

- Dark mode and light mode for visual preferences

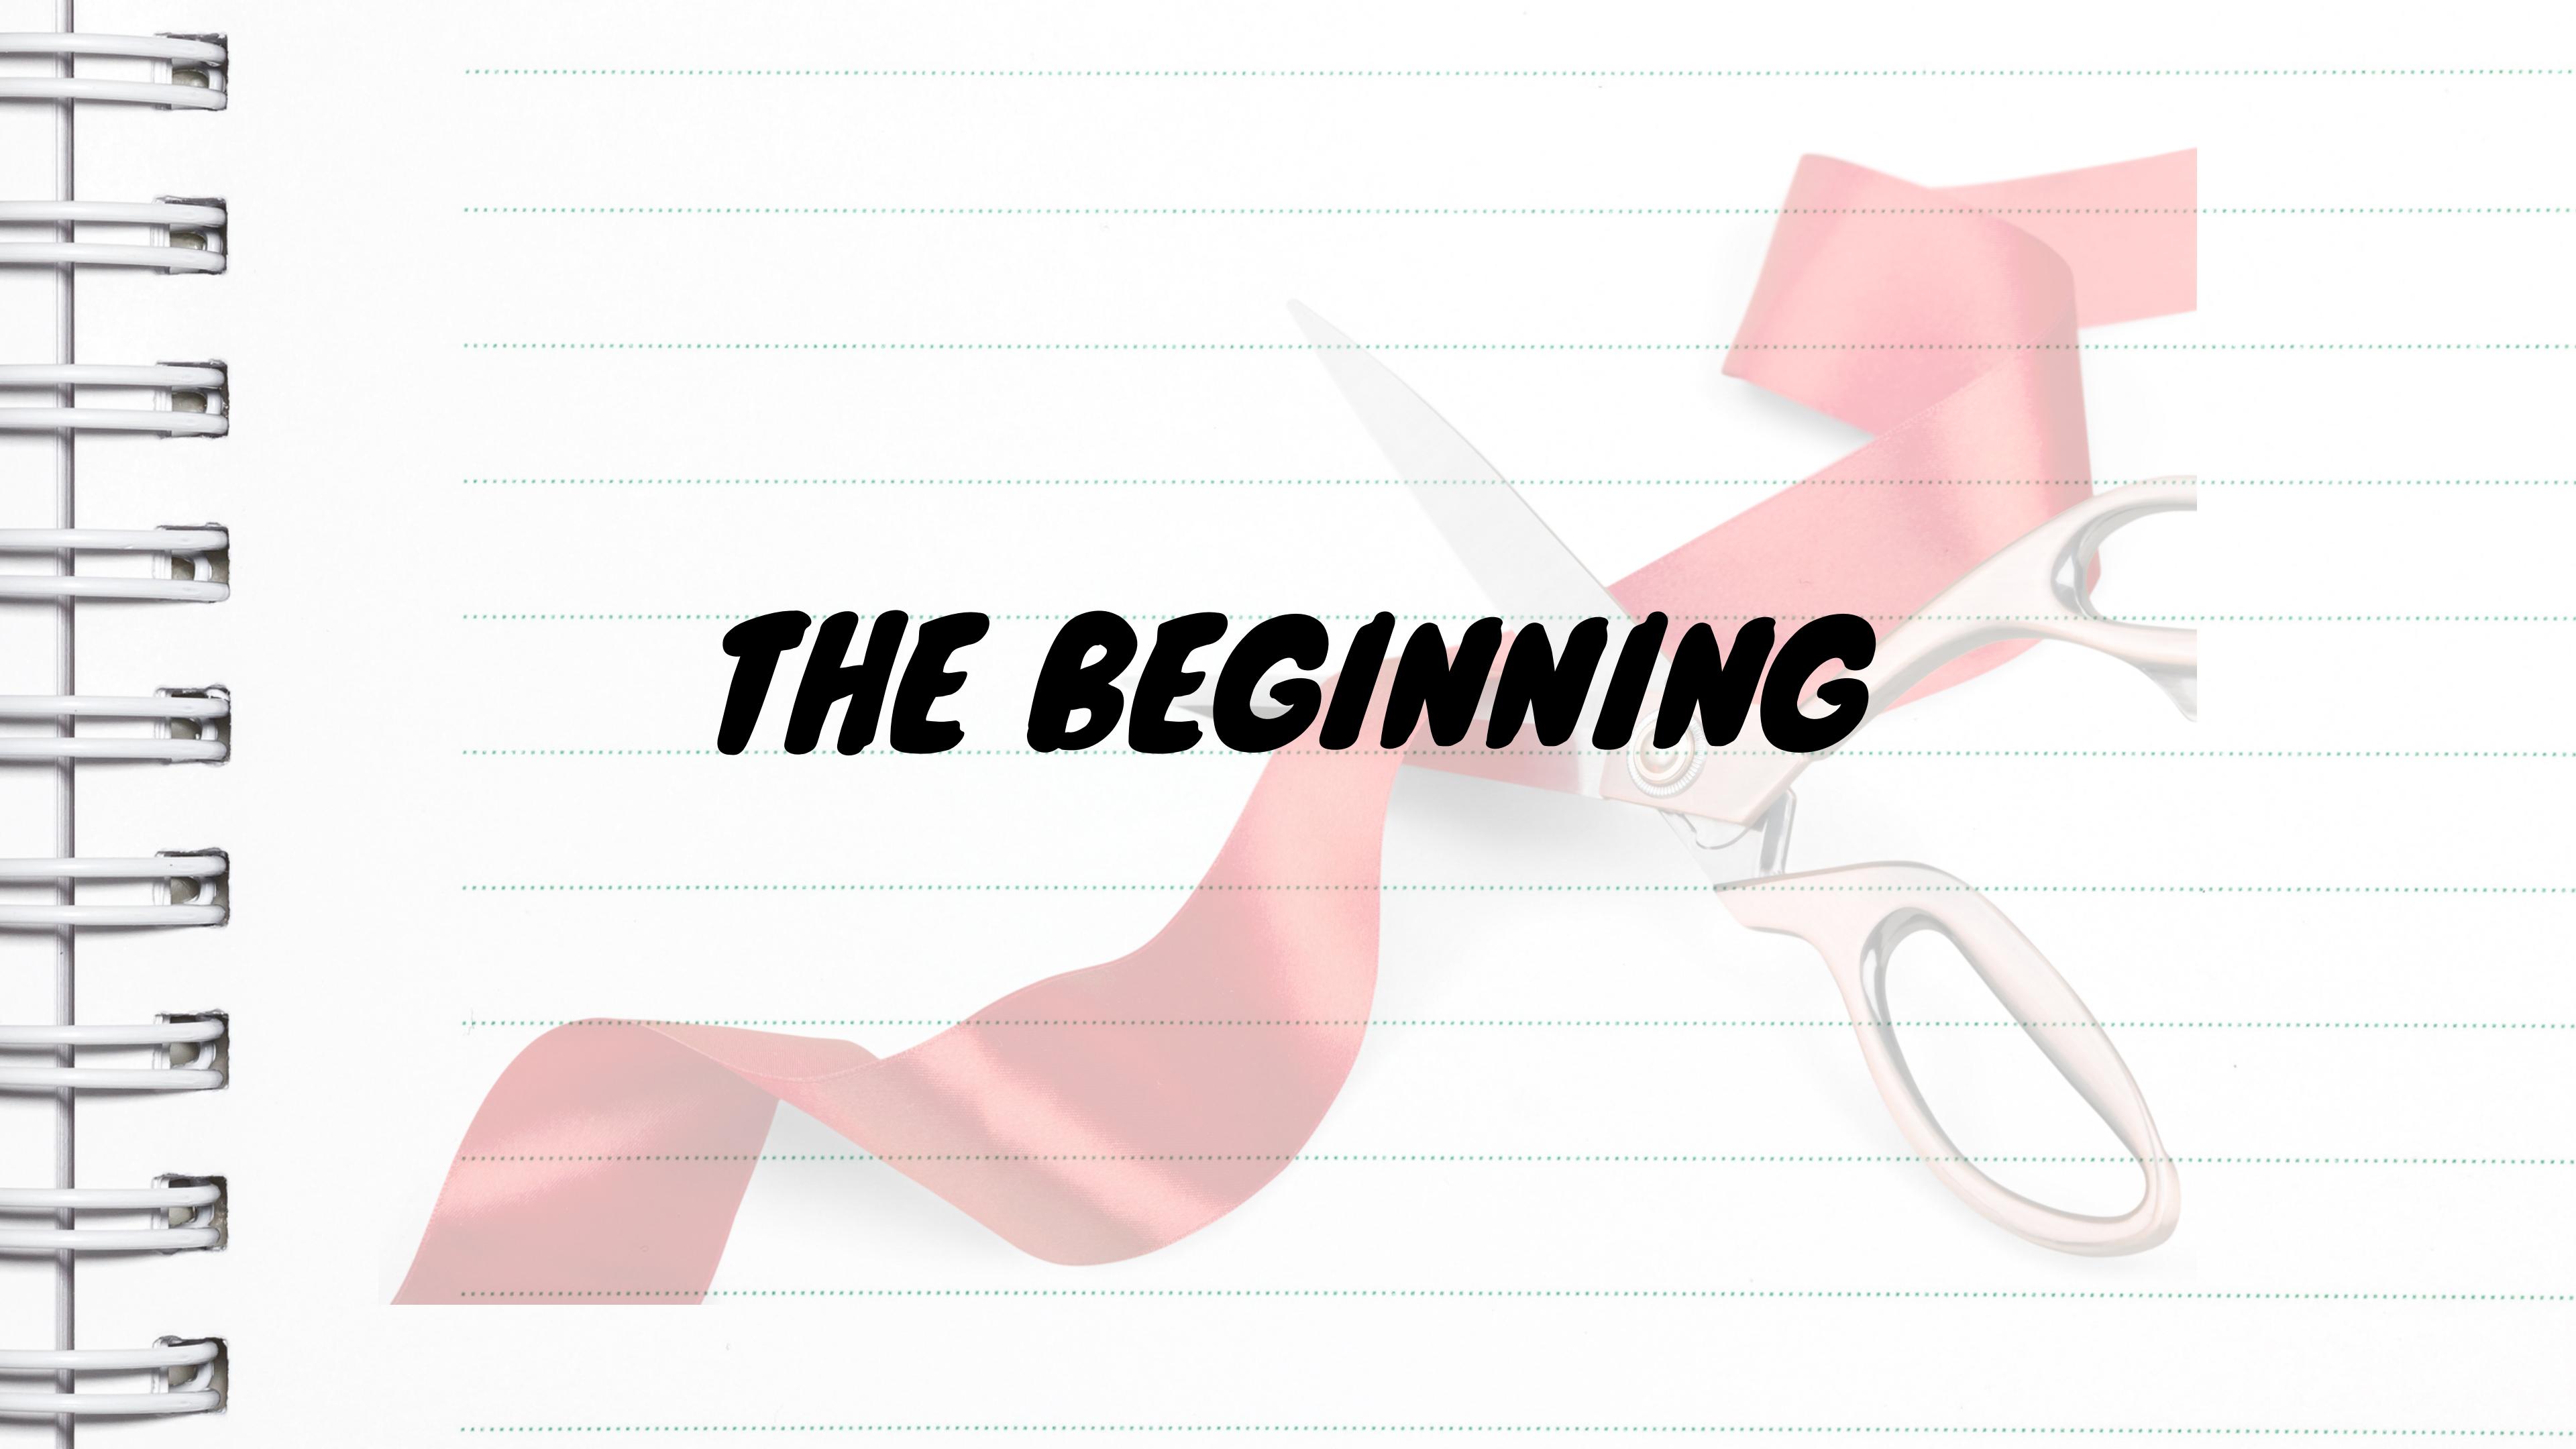

- Enhanced readability and reduced eye strain

- Notes section for task description

- Ability to attach images to tasks

- 

**THE BEGINNING**
